We aim to have **accessible** workplaces and infrastructure ensuring equal opportunities. Our DIBA commitment is deeply intertwined with our PPL Values.

The philosophy of '**Doing Well and Doing Good**', along with our core **PPL Values** of **Knowledge, Action, Care & Impact** have been constant in our journey and serve as guideposts to help us become the company we would like to be. We stay true to our purpose of 'Doing Well and Doing Good' by following three basic tenets of ***Serving People, Making a Positive Difference and Living Our PPL Values.***

We believe that our organization is strongest when we represent the diversity of the communities that we serve. We firmly believe that our ability to strengthen our culture, effectively drive our business strategy and build long term relationships with our patients, consumers and customers depend on a truly diverse workforce and an inclusive work environment.

- **For the Organization:** Our purpose of Doing Well and Doing Good is inspiring in its call to action on diversity, inclusion, belonging and accessibility. To bring our purpose to life, we must have the best talent on board, which identifies with our PPL Values and strongly aligns with our patient, consumer and customer-centric culture. We believe that having a diverse employee base will enable sustainable business growth and creation of long term value for our stakeholders
- **For our People:** At PPL, our cultural priorities are patient, consumer and customer centricity, seamless collaboration and empowered accountability. Our success is fueled by our human capital that constantly enables us to deliver on our purpose of Doing Well and Doing Good. Ensuring that our decisions and day to day operations reflect a wide array of perspectives is critical to maximizing and unleashing our people prowess and unlocking business value. Our people must feel that they operate in an environment that welcomes and celebrates differences and enables them to bring all of who they are in order to do their best work. In line with this objective, we strive to adopt practices and processes that enable exceptional and equitable experiences for all of our people and strengthen our culture of inclusion.
- **For our Patients, Customers and Communities:** We strive to understand our patients', consumers' and customers' needs and build an organization that is dedicated to addressing them. To operate in a complex global environment, we must be equipped in dealing with different cultures and lifestyles and embracing those differences in an informed and nuanced manner. We believe that the diversity of our workforce enhances our ability to understand the needs of our patients, consumer and customers, and create sustainable impact on the communities that we are part of.

## **DIBA at PPL**

At PPL, diversity, inclusion, belonging and accessibility are the responsibility of every employee across the globe. We are hopeful that articulating and sharing our Global DIBA Priorities and the Global DIBA Guidelines will enable our employees to perform at their best while being themselves and foster a culture that is fundamental to our continued success.

Piramal Pharma Limited is a collective sum of individual differences that we embrace and encourage- such as age, color, ethnicity, disability, family or marital status, gender identity or expression, language, national origin, physical and mental ability, political affiliation, race, religion, sexual orientation, socio-economic status, veteran status, and other characteristics that make our employees unique.

## **Our Global DIBA Priorities**

At PPL, we believe that one of the most effective ways of catering to the needs and desires of our diverse patients, consumers, customers and communities is to have a workforce that appreciates the diversity of the world around us. Additionally, we will be better equipped to build lasting relationships with the communities around us, locally and globally.

Our Global DIBA Priorities as listed below set the tone for our DIBA initiatives worldwide.

### **Attract and hire a diverse talent pool**

We aim to improve hiring processes and practices to drive technology aided recruitment with a focus on utilization of diverse interview teams. We strive to ensure that our global talent acquisition team and hiring managers are equipped to conduct broad searches for diverse candidates and maintain multiple platforms to proactively reach out to candidates from diverse backgrounds.

### **Engage and retain a diverse workforce**

We know that through a culture of inclusion, where people from diverse backgrounds can bring in their ideas, we are in a better position to serve the ever-evolving needs of our global patients, consumers and customers. We strive to make considerable efforts in accelerating diverse talent representation throughout our organization. We also strive to focus on engaging and retaining our existing diverse talent through a wide range of personal and professional development programs, investing in robust employee communication and listening frameworks. Additionally, we endeavor to roll out new leadership imperatives that reinforce inclusive behaviors as essential elements in leadership skills throughout our organization.

### **Establish a DIBA governance mechanism**

In order to drive business results and role model our PPL Values and cultural priorities, we aim to strengthen integration of our DIBA priorities into our end-to-end talent practices (goals and objectives setting, performance management, talent review, feedback and succession planning et al.). We will constantly endeavor to hold ourselves accountable for results and strive to embed controls and oversight throughout our organization to drive progress.

### **Comply with local laws applicable to the geography**

We aim to comply with applicable employee legislations across locations.

## **Our DIBA Initiatives and Measures**

We endeavor to monitor our internal pay data to ensure the above principle is reflected in our compensation programs, policies, and practices.
- We intend to conduct performance reviews in a fair and unbiased manner. We recommend a balanced approach to goal setting with clearly defined and measurable outcomes. We aim to link merit increments and performance pay with individual and business performance where individual performance is measured based on achievement of predetermined goals and objectives and display of Piramal Success Factors.
- We make consistent efforts to equip our managers to objectively recognize performance and provide evidence-based feedback for the growth and development of their team members.

### **Prohibiting Discrimination, Harassment and Bullying**

PPL is committed to a workplace that is free from employee harassment, discrimination and bullying. PPL expressly prohibits any form of employee harassment based on race, color, sex, religion, sexual orientation, gender identity or expression, national origin, age, disability, genetic information, status as a protected veteran, or status in any group or class protected by applicable central, state or local law. Improper interference with the ability of employees to perform their expected job duties is not tolerated.

The conduct prohibited by these Guidelines, whether verbal, physical, or visual, includes any discriminatory employment action and any unwelcome conduct that affects someone because of that individual's protected

status. PPL prohibits that conduct even if it is not sufficiently severe or pervasive to constitute unlawful harassment.

### **Reporting Inappropriate Conduct**

Each member of PPL's management is responsible for creating an atmosphere free of discrimination and harassment, sexual or otherwise. Further, employees are accountable for respecting the rights of their co-workers.

If employees experience or observe any job-related discrimination or harassment based on sex, sexual orientation, gender identity or expression, race, national origin, disability, age, or any other factor or believe they have been treated in an unlawful, discriminatory manner, promptly report the incident to your manager, department or division head, the Compliance Department or Human Resources representative. Alternatively, employees are encouraged to report the facts to their respective business ExCom members, to raise the concern. We will aim to provide employees with platforms to raise anonymous complaints (forum 'Speak Up'). These Guidelines apply to all incidents of alleged discrimination or harassment, including those occurring off- premises or off-hours, where the alleged offender is an employee (a manager, co-worker, or even a non-employee with whom the employee is involved, directly or indirectly, in a business or potential business relationship).

We take allegations of discrimination, harassment, and bullying seriously, and ensure they are properly investigated. All reported incidents will be investigated with an effort to keep the source of the report confidential, with the disclosure of information as appropriate to facilitate the investigation or the resolution of the matter. All employees must report any conduct they believe violates these Guidelines. Additionally, every employee must cooperate with any investigation conducted by PPL, regardless of whether the investigation is being conducted by PPL officials or outside parties retained by PPL for this purpose, or, for that matter, by an outside agency.

PPL prohibits retaliation against any employee for raising a concern in good-faith. Presenting a concern in good-faith means that an employee has made a genuine attempt to provide accurate and truthful information even if it is later proven to be mistaken. Retaliation against an employee because of a report under these Guidelines or because an employee has participated in an investigation under these Guidelines is strictly prohibited and will not be tolerated. However, if, after investigating any complaint of harassment or discrimination, we determine that the complaint is frivolous and was not made in good-faith, or that an employee has provided false information regarding the complaint, disciplinary action may be taken against the individual who filed the complaint or who gave the incorrect information.

### **Consequences**

Employees who do not comply with these Guidelines and/ or are found to have engaged in discrimination, harassment or bullying will be subject to appropriate disciplinary action, up to and including termination of employment.
